Welcome to our company

Established since 2010, Reszon Diagnostics International Sdn. Bhd. (Reszon) develops and manufactures a suite of innovative **in vitro diagnostics (IVD) rapid test kits (RTK) and ELISA kits specializing in infectious diseases diagnosis and drug of abuse screening** for medical professionals and clinical diagnostic markets worldwide.

Our IVD rapid test kits enable medical professionals to diagnose diseases quickly and accurately for early detection and prevention of diseases. The simple assay procedures plus portability of our rapid test kits make them ideal for use in wide range of settings including remote areas and countries where sophisticated medical diagnostics are not available.

Our Manufacturing Facilities

Nestled in the science park located at Technology Park Malaysia (TPM), Bukit Jalil, Kuala Lumpur, the core R&D, manufacturing and warehouse hubs of Reszon is spanning the area of 89,000 square feet, where more than 800 employee working around the clock to develop and produce as many test kits to healthcare workers and patients.

At Reszon, we continue to create solutions for healthcare institutions, laboratories, medical offices from all around the world.

The test results derived from our testing device play acute role in point-of-care decision making, influencing majority of critical healthcare decisions for millions of people worldwide.

Vision

To deliver better diagnostics solution to improve better health globally

Mission

- To be a global leading player in clinical diagnostics market
- To produce and deliver top notch quality and cost effective diagnostic test kits
- To constantly developing new immunodiagnostic tools with the most practical and innovative approach

Quality Excellence

Our R&D and Collaboration

Our R&D team has professional expertise in various biotechnological areas with extensive experience in respective diagnostic field.

We collaborate with reputable industry leaders and scientists around the world to develop new immunodiagnostic tools in response to market demand.

Reszon also works closely with local Public Health authorities and WHO representatives in several countries in promoting disease elimination program.

Our Commitment

Our commitment towards quality excellence in product performance and standards, coupled with like minded reputable distribution partners at the helm, has driven our continued success.

We strive to establish mutual beneficial and long-term customer relationship with our business partners and end-users with unparalleled customer service and technical support.

In the Battle against COVID-19 Pandemic

As COVID-19 remains spreading around the globe with emerging threats of different variants, Reszon is working continuously to deliver rapid screening solutions for global communities to help fight the evolving threat.

Leveraging decade of experience detecting viruses, expertise in diagnostic tests and deployment of quality management system, Reszon successfully launched COVID-19 Rapid Antigen Test and COVID-19 Rapid Antibody Test Kit series, among which the **SALIXIUM COVID-19 Rapid Antigen Test (Saliva/Nasal Swab Samples)** received conditional approval by Medical Device Authority Malaysia (MDA) for home self-testing.

Lymphatic filariasis, detection, prevention and control in Georgetown, Guyana & Pernambuco, Brazil, 2015

BRUGIA RAPID – Endorsed by WHO for use in GPELF

The **Global Program to Eliminate Lymphatic Filariasis (GPELF)** was initiated by WHO since year 2000 with the ultimate objectives to stop the spread of filariasis infection and to control morbidity through continuous collaborative effort worldwide.

Filariasis diagnostic product, **Brugia Rapid Test** manufactured by Reszon is endorsed by **WHO Technical Advisory Committee** for use during **transmission assessment survey (TAS)** in several endemic countries such as **Malaysia, Indonesia, Philippines, Vietnam and Sri Lanka.**

Through the use of our product as diagnostic tool, we hope that the correct intervention can be administered and hence helping to stop the spread of filariasis infection in affected countries.

Lateral Flow Rapid Test For Infectious Diseases

Lymphatic Filariasis Infection

Cat. No.	Product Description	Test Specimen*	Product Format	Intended Use	Intended Use	Storage Temp.	Packing Size
RLF-RD0101	Reszon Lymphatic Filariasis Rapid Test - PanLF Rapid Test	S/P/WB	Cassette	Lymphatic Filariasis Infection	For Professional Use	4-30°C	25 T/ Kit

Moving Forward

70%
AUTOMATION
by 2025

We aspire to automate 70% of our production by 2025 to stay ahead of the industry curve.

We believe this strategic investment will help us to further improve our production capacity and quality, and extending more resources to focus on next-level research & development.
